

MESD is pleased to host a Touch Math training provided by Innovative Learning Concepts, creators of Touch Math.

This session will include training in learning modalities as it relates to counting, skip counting, patterns, addition, and subtraction. Also discussed will be best practices for the classroom and the brain research behind Touch Math. The

Touch Math system was designed to reach different types of learners in order to build strong math skills. You do NOT need to own Touch Math kits in order to benefit from the training and implement the strategies in your classroom.

This training is appropriate for special education resource or life skills teachers who serve students with *functional* levels K-4th grade in math (regardless of grade level).

This training is being provided at no cost. Participants are limited to 50, so please sign up soon to reserve spots. Lunch on your own.
